CzechPOINT

The Ministry of the Interior of the Czech Republic built [Czech POINT \(abbreviation for Czech Submission Verification Information National Terminal\)](#), as part of [Assisted Universal Contact Point](#) with the aim of creating a universal filing, verification point and information centre where one could obtain in one place all the data, copies and extracts that are kept in central public records and registers, as well as in central non-public records and registers on one's person, belongings and rights. A place where it is also possible to verify documents, deeds, signatures as well as the electronic form of documents and to make submissions to any public administration office. The main services are therefore:

- Authorised extract service from the public administration information system.
- Authorised submission service to the public administration information system
- Authorised document conversion service

Currently, at Czech POINT offices it is possible to obtain, for example, an extract from the Land Register, the Commercial Register or the Criminal Register. The complete list of services is published here <https://www.czechpoint.cz/public/verejnost/sluzby/>.

The assisted contact points of Czech POINT will be developed in the coming years to the extent that it will be possible to make a similar range of submissions, obtain a similar range of data and information on the course of proceedings in all cases that the state is conducting in relation to a person, as will be offered by the self-service contact points. However, it is not realistic that an assisted universal point of contact will ever encompass all of the services and information that can be obtained at a self-service or dedicated point of contact. This is because the high degree of specialisation of some services (e.g. tax returns) prevents all services from being provided by an assisted one-stop shop.

There are also plans to use Czech POINT contact points to apply for various types of documents, which are unlikely to be professional cards in the first phase.

Extracts from public administration information systems	Issuance of verified output from the List of Qualified Suppliers	Ministry for Regional Development	The List of Qualified Suppliers is maintained by the Ministry of Local Development as part of the Public Procurement Information System. The Ministry of Local Development enters into the list suppliers who have fulfilled the qualifications according to Act No. 134/2016 Coll., on public procurement, have proved the fulfilment of the qualifications to the Ministry with the relevant documents and have paid the administrative fee.	This service is primarily intended for companies and suppliers interested in bidding for public contracts. Thus, an extract from the List of Qualified Suppliers can be used by a supplier in a procurement procedure to replace documents proving compliance with basic and professional qualification criteria. The contracting authority is obliged to accept an extract from the list if it is not more than 3 months old. This is a public register, anyone can request an extract.	To obtain an extract from the List of Qualified Suppliers, it is only necessary to know the identification number of the organisation.	The issue of the first page of the extract is subject to a fee, the maximum amount of which is limited by law to CZK 100; each additional page of the extract is subject to a fee, the maximum amount of which is limited by law to CZK 50.	Act No. 37/2006 Coll., on Public Procurement, as amended

Extractions from public administration information systems	Extraction from driver's points	Ministry of Transport	This service allows citizens to find out the status of criminal points (without points in administrative proceedings) at the public administration contact point. The extract is provided from the Central Register of Drivers maintained by the Ministry of Transport, which includes the record of points. This extract is only informative for citizens and does not replace the extract from the driver card for contact with the authorities. The issue of extracts of drivers' penalty points by public administration contact points is regulated by Act No 480/2008 Coll.	The extract can only be requested by the applicant himself or by an agent appointed by him. A statement can also be issued to foreigners who have, for example, permanent residence in the Czech Republic.	The person who applies for a statement at a Czech POINT must have a valid identity document (ID card, passport) and must be assigned a birth number. To trace the driver in the register, it is also possible to enter the number of the driver's licence optionally.	The administrative fee that the applicant pays at the local government offices is for the first page max. 100,-CZK and for each additional page max. 50,- CZK. For other operators of contact points (Czech Post, Chamber of Commerce, notaries) the fee is governed by the internal tariffs of each organization.	Act No. 480/2008 Coll., amending Act No. 274/2008 Coll., amending certain acts, in connection with the adoption of the Act on the Police of the Czech Republic, Act No. 361/2000 Coll, Act No. 141/1961 Coll., on Criminal Procedure (Criminal Procedure Code), as amended
Extracts from public administration information systems	Extract from the Insolvency Register	Ministry of Justice	The Insolvency Register is a public administration information system administered by the Ministry of Justice of the Czech Republic. Its basic task is to ensure maximum publicity about insolvency proceedings and to enable monitoring of their progress. The Insolvency Register publishes all relevant information concerning insolvency administrators, documents from insolvency files and statutory information concerning debtors.	For the public	It is a publicly accessible register, so it is not necessary to verify the identity of the applicant. The register can be searched on the basis of two parameters - the identification number of the organisation (search for the relevant organisation) and by personal data (search for a specific person).	The fee for a certified extract is governed by the Act on Administrative Fees, i.e. CZK 100 for the first page and CZK 50 for each subsequent page.	Act No. 182/2006 Coll., on bankruptcy and its resolution (Insolvency Act), as amended

Extractions from public administration information systems	Extraction from the Criminal Register	Criminal Register - Ministry of Justice	<p>The applicant may request that the extract also include data from the Criminal Register from another EU Member State in which the applicant resided.</p> <p>On the basis of a signed written request, the Czech POINT employee sends an electronic request to the Criminal Register, which responds either by forwarding the extract or information on the inclusion of the request in the so-called "criminal register".</p> <p>In case the Criminal Records Office responds by sending an electronic extract, the extract is printed, completed with a verification clause and completed.</p> <p>In the case of manual processing, the applicant is only given a so-called "dressing slip" which contains the deadline by which the extract should be ready. The applicant arrives at any contact point within the given deadline and has a criminal record extract issued on the basis of the dress slip and proof of identity. Pursuant to Section 11a(1) of Act No 269/1994 Coll., on the Criminal Record, as amended, an extract from the Criminal Record may be issued to the person to whom the extract relates only on the basis of a written request. This request does not need to be filled in manually, the client receives it completed for signature before the criminal record extract is issued to him. This application shall be archived in accordance with the law.</p>	<p>The applicant for a criminal record extract must have a valid identity document and be assigned a personal identification number. This means that an extract can also be issued to foreigners who, for example, have permanent residence in the Czech Republic.</p> <p>At Czech POINT offices, extracts can also be issued to proxies who apply for an extract from the Criminal Register on the basis of an officially certified power of attorney. In the next step, an application for an extract is printed out and signed by the applicant.</p> <p>In the case of an electronic extract, the applicant takes the extract on the spot and pays an administrative fee.</p> <p>In the case of so-called manual processing, the applicant arrives at any contact point on a given date and, on the basis of a dress card and an identity document, has a criminal record extract issued. In the case of an electronic extract, the applicant takes the extract and pays an administrative fee of CZK 100 (irrespective of the number of pages, in accordance with Act No 634/2004 Coll., on administrative fees, as amended). The administrative fee is the revenue of the verifying municipality. No collection is made on the extract provided. In the case of manual processing, the applicant shall pay an administrative fee of CZK 100 regardless of the number of pages.</p>	Act No. 269/1994 Coll., on the Criminal Record, as amended

Activation of the identification means at the Czech POINT contact point	Activation of the identification means at the Czech POINT contact point	Ministry of the Interior, eGovernment Department	If you have decided to activate your user account (identification means Name, password and SMS) by providing reference data from the population register to another person at the Czech POINT branch, please follow the following instructions that we have prepared for you. The first step is to submit a request for the provision of reference data from the population register to another person, which in this case is the Administration of Basic Registers. You can make the request free of charge at any Czech POINT contact point. In the request filled in at the contact point, you must insert your identification code for attaching the consent in the message to the recipient, which is sent after the registration of the user account to the e-mail address you filled in. The same code is also sent to the filled in telephone number.	For the public	<p>- Your identity document</p> <p>- Your identification code</p> <p>Then choose any of the Czech POINT branches. The contact points are located at the branches of the Czech Post or at municipal or city offices. If you are not sure of the address of the contact point, you can find the location of the nearest contact point on the Czech POINT website.</p> <p>1. At the counter, tell the official that you would like to provide "Request for providing reference data from the population register to another person".</p> <p>2. Present your ID card</p> <p>3. Tell them that you want to provide your personal data to a legal entity with ID 72054506. This is the registration number of the Basic Registers Administration.</p> <p>4. When asked for the scope of the data provided, select the items "Date of birth" and "Electronically readable document numbers".</p> <p>5. Then enter your identification code in the message to the recipient.</p> <p>6. Finally, select the one-time provision option.\</p> <p>The operator will print the completed application form for your review and signature. On this form, check in particular your personal data, the correct ID number identifying the Basic Registry Administration, the scope of the data provided (date of birth and document numbers) and check your identification code in the message to the recipient. If all the details are correct, sign the document and return it to the counter attendant. She will send your application and print you a confirmation.</p> <p>Activation of your account as a means of identification for logging in outside the National Point portal usually takes place within a few minutes and it can be used fully to access online services.</p>	Free
