Central Model Repository

NAP does not currently have any guidance, advice, procedures or binding regulations on this issue. This will be addressed in future versions.

Rules for local model repositories and modeling tools

NAP does not have guidance, advice, procedures or binding regulations on this issue in the current version. To be addressed in future versions.

Model Exchange

The Authority must ensure that its architectural tool complies with [The Open Group ArchiMate model exchange file format](#). This format will be required as mandatory in all parts of the NAP or ICD.

List of essential elements of eGovernment architecture

The following table serves only as an example of a future publication of elements with a unique central GUID that will be mandatory for these elements in all authority architecture models.

Element Name	Description	Element Type	GUID
CzechPOINT Headquarters	Central system serving all CzechPOINT services	Application component	123
CzechPOINT@office	Interface for officials providing predefined services	Application interface	456
CzechPOINT	Interface designed for assisted public administration services. It is used by an assistant at the request of a client	Application Interface	789
eSSL	Electronic filing service system	Application component	123
Document management	Function performed by the originator	Business function	456
Designated Originator	Person who is legally obliged and responsible for document management in the filing service	Actor	789
